At the Palais Royal.

T would seem impossible that any previous sale of Art Goods has attracted a throng of enthusiastic connoisseurs like that witnessed at the Palais Royal'teday Another great surprise tomorrow. In reply to tel gram the importer sends this message flying over the wires: Accept offer, ship tonight. This means at 10 o'clock tomorrow morning we shall have a choice pieces of Bric-a-Brac as were so eagerly pur hased today. As remarkable prices guaranteed viz. \$3.98, \$2.98, \$1, and as low as 50c. for Royal Westeria, Trellis, Adderly, Bonn, Leicester and Majo ica Wares. Some of the large vases and urns are the sisters of those for which \$10 has been charged at wholesale. The explanation of these remarkably low prices will be appreciated by those who understand the ups and downs of importers and others dealing it choice wares, the demand for which is so much affected by good and had times. A surplus of a few hundred

THE PALAIS ROYAL,

Note. The All-linen Torchon Laces, at the surpris price of 5c. and 10c. a yard, are by mistake omitted from list below.

## LACES AT SPECIAL PRICES.

To properly appreciate the special prices you must have a correct idea of the magnitude and variety of the Palais Royai's late importations and know of the qual

For instance: Here are the Bow-khot bragery sees of Black Chantily lace at \$1.35, of quality that will cost you \$1.75 a yard elsewhere. The companion demi-flouncing is marked 50c., but may be claimed during this sale at like, a yard. WE KNOW that such

THERE ARE REASONS FOR ALL THIS. Our Paris agent, Mr. Henri Kaiser, unintentionally

tells you the whole story in a letter to our buyer. He writes: "As I anticipated, bow-knot laces are again creating a furore, as are Point d Irelande and Generaling moortalions will help you, as prices have advanced

The tashion journals but echo the sentiments of our agent's Parisian experience. In fact so much is the coming lace creze recognized that the New York Heratal lately devoted a commun to the subject. Heratal lately devoted a commun to the subject. Heratal lately devoted a commun to the subject. Heratal lately devoted a community of material on which lace may be used, but when and where it MAY NOT be. The Falais Royal having the advantage of a resident foreign agent and the courage to abide by his opinions is enabled to now claim one of the largest, best and chedpest dues stocks in the United States, only allowing as competitors the few giant houses of New

As an illustration of superior quality linked with low price see the Black Silk Point d'Ireland Demi Floundings marked 50c., which for this sale are red

It requires a certain amount of experience to classify the new laces: Point d'Ireland, Point Gene and Point Guipure are related, but differ in rank. You may be unintentionally deceived by those who call Point Gene by the name of Point d'Irelande. We offer the Point Gene Lace in the Tashionable Beige tint at nearly one-half the prices of Point d'Irelande; 11 inches wide, 35c. yard; 8 inches, 25c.; 3 inches, 10c., and 23c inches wide for 7c. At first glance you'll think them as good as those more expensive; that they are as beautiful your eyes will tell you.

T	
I O glean an idea of the magnitude of our stock re-	
member that there are very many prices between the	
extremes quoted below and in some instances a score of	
different designs at each price:	
Point d'Irelande (White)	
Point d'Irelande (Beige)	
Point d'Irelande (two-tone)25c. to \$1.35 yard	
Point d'Irelande (siik, Beice)35c, to \$1.50 yard	
Point d'Ireiande (silk, Black) 25c. to \$3.98 yard	
Point de Gene (White)	
Point de Gene (Beige)	
Point de Gene (two-tone)	
Point Guipure (White and Cream)14c, to \$1.50 yard	
Point de Paris (White)	
Point Applique (White)	
Torchon Laces (all linen) Sc. to 75c. yard	
Chantilly Laces (Black silk)	
Chantilly Luces (demi-flouncines) 25c. to \$3.98 yard	
Chantilly Laces (42-inch flouncings) 81 to 85 yard	
Chantilly Nets (48 inches wide) 48c, to \$5.50 yard	
Beaded Laces (on silk net)	
Beaded Nets (30 inches wide) \$2.68 to \$4.68 yard	
La Tosca Nets (48 inches wide)	
La Tosca Nets (25 inches wide),	
La Tosca Nets (64 inches wide) \$1.75 to \$2 yard	

OUR buyer asks your attention to the new Tose Nets, which have much finer mesh and are altogether more beautiful than any yet introduced. Those 54 inches are to be much worn. The buyer knows how and when to use them, and will be giad to furnish all information. The very lovely new Lace Floancings at \$2 instead of \$2.48 a yard and at \$1.00 instead of \$2.50 a yard are not the least of the many attractions of this special sale. At \$1 a yard are many designs; one pattern of a stripe and vine with small spray between, another combines croscents, dots and datases, and still another of floral and block; all these are \$125

V.EII.S we don't know how to advertise. If you are told one evening of the latest novelty, the chances are the next morning sees the arrival of the very latest. That's why we are enting headquarters. The very latest we can write you of is the Filmy Brussels Net, if yards wide, with lace border both sides and center dotted here and there with tiny sprays of flowers. The way of wearing is the thing to know. Not only does the veil cover the hat or bounet, but it reaches to and below the waist or may be draped over the shoulder. The buyer will show you.

London, March 21 .- In accordance with the lecision of the miners' federation nearly all the coal miners who quit work on the 12th instant, with the exception of the Durham miners, who are not members of the federation, resumed

work this morning.
In a few districts where the miners are still idle the mine owners insist that the men shall remove without payment the falls of earth that have occurred during the week of their self-imposed idleness. This the men refuse to do. In other colliers there is some friction in consequence of the federation's decision to

consequence of the inderation's decision to timit work to five days a week.

The strikers in Durham who quit work, not with any idea of causing an advance in the price of coal, but with the intention of resisting a threatened reduction in wages, number 92,000 The newspapers predict that in this district there will be a protracted struggle between the men and the employers. A large number of the miners are migrating to other mining countries, and many of them are going to America. Several of the mines in Durham are likely to be seriously damaged by the contined inflow of water, the owners being unable to obtain a sufficient number of men to properly

work the pumps.
All the Nottingham miners, numbering 23,000. resumed work quietly at the usual hour this morning. As a result of the resumption of mining operations the price of coal in the district declined three shillings per ton.

KILLED BY A BOILER EXPLOSION Fatal Disaster This Morning at an East Jor-

"If they try to get a Sherman delegation from Ohio," said Auditor of State Poe this morning, a well-known Foraker republican, "there will be fun. It looks to me like a scheme of Secretary Foster to corral what votes in Ohio would not go to President Harrison at Minneapolis, hold them for Shorman, with the understanding that at the right time Senator Sherman is to turn them over to Harrison. It looks to me ass though the administration fellows in Ohio are getting scared when they resort to such schemes."

Sarah Althea in a Straight Jacket. CHICAGO, March 21.-A Stockton, Cal., dispatch says that Mrs. Sarah Althea Terry, since her incarnation in the asylum, has become very violent and leads her attendants a life of misery. One of her favorite methods of pass-ing time is to lean against the wall and receive spirit messages. The spirits order her to do all sorts

strange things, and their orders are implicitly obeyed. Refusing to conform to the asylum's rules and discipline, it was recently necessary to use some force with her, and she became so refractory that she has since been put in a traight jacket. A Letter Protesting Against Violation of TALK WITH THE CHINESE MINISTER IN RE-GARD TO THE TREATMENT OF HIS PROPLE IN

CHINESE RESTRICTIONS.

THIS COUNTRY-HIS REMARKS UPON THE ATTI-TUDE OF THIS GOVERNMENT.

Mr. Tsui Kwo Gin, the Chinese minister, has prepared a letter to the Secretary of State urging an early response to the various commu-nications that the Chinese government has sent to this government with reference to the restriction of Chinese immigration. Owing to the continued illness of Mr. Blaine the letter has not yet been sent, but there is little doubt that it will be forwarded to the State Department within a very low days.

This means a good deal more than appears on the face of it, for the letter is almost the same as the one recently sent by President Harrison to Sir Julian Pauncefote asking for an early response to his letter of the Sth instant. It has been written and will be sent for practi-

The Chinese government is dissatisfied with what it considers the unwarranted and inexcusable delay on the part of this government in answering important communications.

The Chinese minister's letter is understood to be brief and pointed. He has, already said all that he cares to say on the matter and now he is anxious to hear what the other side may have to say. The situation is regarded as not without a serious phase and there is no denying the fact that the feelings of the Chinese one of the colonies about the same time as the toward the American people are by no means as pleasant as they might be. It is well within the bounds of reason to suppose that the Chinese government is con-sidering retaliatory measures in the form of restrictions upon the immigration of Americans into the flowery kingdom, if not its abso-

The bill now before Congress is expected to pass in the House. It bars all Chinese from entering this country, excepting only the members of the

What is to follow is entirely a matter for conjecture. The withdrawal of the Chinese minister is said to be anything but an impossibility when all the circumstances are taken into consideration. This cannot be verified at the legation, for there is not a more diplomatic minister anythere is not a more diplomatic minister anythere. here is not a more diplomatic minister anywhere than Mr. Tsui, and even were this not so the fact that he speaks but little English would prevent him from talking too much for publi-AN INTERVIEW WITH THE CHINESE MINISTER.

In answer to the question whether the letter to the Secretary of State had been transmitted Mr. Tsui said: This morning President Harrison discusses Lord Salisbury's reply, which is said to be "For several years, in fact ever since I have quite lengthy, discussing the Bering sea situa-

been in this country, I have been endeavoring to secure better treatment for my people at the hands of the United States. To this end I have forwarded a number of letters to the State Department stating our position in the matter, but as yet I have received no satisfactory answer. "On a recent visit to Hartford," continued on foreign relations, announced to the Senate "On a recent visit to Hartford," continued the minister, "made for the purpose of inspecting the small arms there, I talked over the Chinese question with a number of prominent New Yorkers. I held to the position then as I do now that if the United States wishes to put a stop to Chinese immigration it should be done by means of a treaty with my country. For the United States to agree to a treaty providing for the admission of Chinese and then to override it by an act of Congress is hardly that the intention of asking for an executive session at 2 o'clock was not now entertained. This would seem to indicate that no message in the Bering sea matter will be sent in today the receipt of an answer was admitted to a STAR the letter were met with the statement that nothing could be said on the subject at the present time.

It is understood that this reticence was in accordance with a direction from President Harrison that nothing contained in the letter should be given to the public until the letter to override it by an act of Congress is hardly acting in good faith. One side has all to say and the other side is not considered at all. Now, the United States is known to be guided

Now, the United States is known to be guided in all its diplomatic matters always and solely by a sense of justice and right. 
"The United States is governed by the principles of the Monroe doctrine and does not seek the acquisition of foreign territory nor does it seek to rule wherever it is represented, as do the European governments.

INCONSISTENT WITH THE CONSTITUTION.

"By your Constitution you encourage immigration and insure fair treatment of all alike, and yet your treatment of the Chinese is inconsistent with the Constitution and the principles laid down by George Washington. It is with the knowledge that this is a fair and just government that I say all this for The Star, for it is said with the hope that Congress will act in accordance with the teachings of Washington and Grant and all your other great statesmen. China has a population of 400,000,000, while this country has but 65,000,000. China will not miss the people that come over here, and the United States would not be affected by their presence. But this is not the point. The reputation of the United States is at stake. She has made certain promises and if she does not keep them don't you see what a bad example this country will set the rest of the world? I know that The State is a truthful paper and tells both sides and this is the reason that I am willing to speak all this from the fuliness of my heart."

"There is one question I would like to ask," said The Star reporter, "If the United States puts further restrictions on Chinese immigration will China exclude Americans from her territory?"

The answer was a long time in coming and "By your Constitution you encourage immi-

er territory?" The answer was a long time in coming and was a diplomatic one.

There is a feeling in Congress that the time has come when this country must stop temporizing with this question and must either make the prohibition against the coming of Chinese in this country general and absolute, or else must throw the doors wide open to all Chinese. It is obvious that the latter will not be done. The expectation is that this Congress will go to the farthest extreme of Chinese restriction, and in that event it is likely that all our diplomatic relations with China will be ended.

Lord Salisbury's persistence as shewn in the correspondence on the subject between the two governments and the intimation conveyed in the London dispatches of last Friday that the reply would reiterate his lordship's refusal to renew the modus vivendi, are believed to be a sufficient indication of the tenor of the communication received yesterday.

Notwithstanding this semi-official statement it is known that the department is preparing vessels for service in the North Pacific ocean in the event that they shall be needed. These are the Adams and the Ranger, now being fitted out at Mare Island, Cal., both of which will go into commission in a short time. Another vessel that will undoubtedly go to Bering sea this spring is the Mohican, now at Scattle. Other vessels that can be utilized in case it is deemed advisable to strengthen the fleet are the Baltimore, at San Francisco; the Charleston, at San Diego, and the Boston and Yorktown, now en route to San Francisco, where they will arrive within the next few weeks. These, or a portion of them, with the four revenue vessels, Bear, Rush, Corwin and Albatross, would constitute quite a formidable fleet.
